We are looking forward to discussions and thought-provoking presentations on the following topics but not limited to:

• Problems in Students' Learning: Poor vocabulary, lack of speaking skills, and confidence.

• Gap between the course curriculum and students' progress

• Remedial plan for weak students

• Writing Issues

• Lack of Motivation

• Psychological theories of Learning

• Role of technology in improving students' progress

• Inventing activities to be done outside the classroom

Please submit your presentations by the end of the day on December 30, 2022, to

Dr. Mowaffaq Momani.
